

# The Manifesto of People Living with HIV

**One Voice** of the diverse communities  
of people living with HIV

People living with HIV are within our  
communities, are our family and friends

**Challenging**

HIV-related stigma within  
healthcare, the workplace,  
faith institutes and  
our communities

The right to make  
**informed  
choices**  
around treatment  
and starting ARVs

**Making alliances**

to change the discourse on HIV

The best and  
most effective **treatments** for people  
living with **HIV**

Policies and services  
developed through the  
**greater  
involvement**  
of people living with HIV

A wider  
approach to  
HIV prevention  
including

**Treatment  
as Prevention**

Psychological support within the clinic  
and in the community

Skills, knowledge and opportunities for  
meaningfully engagement in policy and  
**decision making**

Multi-disciplinary  
and integrated  
care and support

Recognise the value  
of and championing **peer support** across  
the UK

Addressing the needs of specific communities:  
**Gay Men, Heterosexual Men,  
Young People, and Women**

Co-ordinated and  
integrated support  
**across the  
care pathway**

As we **grow older** effective support and services to meet  
the physical, psychological, social and sexual health needs of all
